Got it. To be clear, you want Shaun on the phone with you and Mathy or do you need to talk to Mathy first and then get everyone on a call?

Noon would be good with Mathy if that works. Would be good to have a call with Shaun as well when we can get that scheduled.

Over the next week I anticipate continued diligence on data, the initiation of the internal and external investigation, claims process and site stabilization. Reggie/HQ EOC has established a good engagement with UAC.

We had planned to have discussions on the path forward on the one year extension of the GAP for solid waste O&M, and to discuss the multiagency strategy on solid waste we have been developing. While there I would participate in the Gold King mine response checkin calls.
